rendering and animation products specializing in the natural world. Side Effects Softwﾃ
Software leads the planet in 3D animation and special effects software for use in film,
entertainment.

9 Teachers in Charge: Model-Based Authoring of Educational Software
Size: 12.15KB   MIME type: text/html

We describe Goal-Based Scenario Builder, a prototype model-based authoring tool for
software, intended for teachers and curriculum designers. The novel contribution of Gﾃ
extend model-based generation of interfaces as it applies to educational software: (1)
specialized, rather than generic, model-based authoring tool; and (2) GBS Builder gen
interactively with the designer, rather than automatically.

10 CHI 97: From Web Press to Web Pressure: Multimedia Representations and Multimedia Pu
Size: 54.39KB   MIME type: text/html

Editorial staff, working under pressure in printed and online publications, need to use ﾃ
representations for planning, creating and reviewing content. We also show why physi
often preferred over online representations (an issue which is not developed in Sumne
excellent analysis of representations used by software designers [28]). We then discuﾃ
designing and applying new technologies to overcome ...
